

MERIDIAN TO SHOWCASE 'PERFORMANCE DISTILLED' AT HIGH END MUNICH WITH NEW PRODUCT LAUNCH

May 2024

MERIDIAN TO SHOWCASE 'PERFORMANCE DISTILLED' AT HIGH END MUNICH WITH NEW PRODUCT LAUNCH

Meridian is returning to Germany in May (9-12) for the annual High End Munich Show, where it will be bringing a range of products and live demo opportunities to visitors, including an Audio Room that will enable visitors to experience Meridian's signature sound. Meridian will unveil its latest audio at the event, which encapsulates a distillation of its advanced design and technology within a single product.

Meridian Room (Atrium 3.1, Room C112)

Top of the agenda will be the reveal of Meridian's brand-new product. Matching a timeless design that is 'Undeniably Meridian', with the company's signature performance and DSP technologies, this new product is the ultimate combination of versatility, style and sound.

A pair of flagship DSP8000 XE loudspeakers in a striking Volcano Red colour will be on display. The first product to emerge from the company's groundbreaking Extreme Engineering Programme, this speaker's innovative design stems from psychoacoustic research and applies Meridian's Precision Sonic Transport concept to deliver the pinnacle in audio performance.

Visitors will also have the opportunity to view the stunning DSP9 Digital Active Loudspeaker in Piano Lacquer Black. Launched at the show last year, the DSP9 is a masterpiece of product design and audio engineering, technology and performance. The loudspeaker features an iconic cabinet aesthetic that showcases a new design signature for the company, and produces outstanding fidelity, dynamics and power for cinemas and listening rooms alike.

Audio Reference Room (Atrium 3.1, Room D111)

Meridian will also have a presence in the Audio Reference room with a live demo of the DSP9 loudspeaker, which will be in an Aston Martin Sage Green colour. With the DSP9 boasting a suite of Meridian proprietary technologies, visitors will have the opportunity to experience its unrivalled power and performance.

AV EMEA (G16/H09, Hall 2)

AV EMEA will be showcasing the Meridian DSP3200 loudspeaker in an eye-catching Volcanic Orange colour

on its stand in hall 2. The compact product delivers excellent performance through Meridian's award-winning technologies, featuring two integrated amplifiers and two drive-units. Uniting compact size with extreme power allows variation in installation placement, from large applications to intimate listening spaces.

EbM – Engineered by Meridian

EbM offers a portfolio of specialised services and unique technology products which create new and different opportunities for B2B partnership and growth. Visitors to the Atrium 3.1, Room C112 will be able to meet with the EbM team to discuss the wide range of in car audio solutions that the company provides.
