

MERIDIAN ELLIPSE

True Meridian Performance - Distilled

UNDENIABLY **MERIDIAN**

Discover Meridian's all-in-one, high-performance, streaming speaker – **Elegant, Simple, Powerful.**

Meridian Ellipse is here to redefine streamed listening experiences in any room. Born out of Meridian's Extreme Engineering programme, Ellipse distils years of research and engineering into a compact yet powerful package, delivering a tailored and luxurious sound wherever it is enjoyed.

Meridian Ellipse redefines the possibilities of performance from a product of its size.

HEIGHT	171mm (6.7in)
WIDTH	412mm (16.2in)
DEPTH	223mm (8.8in)

PREMIUM BRITISH

CRAFTMANSHIP

Engineered to provide versatility and style in any room, Ellipse embodies Meridian's British heritage and principles in delivering experiences that go beyond the ordinary and suspend reality.

Beautiful to look at, Ellipse is elegant, engaging and enduring. It is gracefully curved from all angles thanks to an elliptical design signature which echoes the design of other Meridian products.

Every Ellipse is meticulously hand-assembled by the same experts who craft Meridian's floor-standing loudspeakers in its UK factory. Every component is carefully selected to deliver astonishingly spacious sound reproduction, ensuring you experience Meridian's renowned sound quality in any room.

The result is a perfect synthesis of function and form; high performance with a timeless aesthetic.

 **MADE IN
BRITAIN**[®]

A UNIQUE APPROACH TO AUDIO DESIGN
At Meridian, we always place the listener at the heart of every performance. Our holistic system approach, informed by psychoacoustics and engineered by experts, ensures that every element is designed for optimal sound. This dedication to extreme engineering delivers unrivalled sound experiences, making every listening moment extraordinary.

EFFORTLESS SIMPLICITY

Ergonomically designed with simplicity and seamlessness in mind, Ellipse is crafted with multiple control options, including the easy-to-use Meridian Control app, to tailor both sound quality and user experience. Ellipse fits perfectly into a wide variety of applications and can be used as a stand-alone system or integrated into an automated smarthome installation. Intuitive control is available via a range of interfaces.

With full wireless connectivity, Ellipse supports multiple streaming services and offers both Wi-Fi and Bluetooth capabilities, and it can be used with a wired Ethernet connection.

Enjoy music more often, without compromising quality.

IP Control for

CUTTING-EDGE

TECHNOLOGY

Twelve of Meridian's unique technologies are employed to enhance sonic fidelity in a variety of listening environments. Pushing the boundaries of what is possible in audio systems, these proprietary technologies overcome inherent issues or limitations that detract from the listening experience and reduce the realism of the reproduced sound.

Producing a natural, authentic and lifelike sound which is immersive and room-filling, Ellipse is designed for music enjoyment. With a bass response usually associated with much larger speakers, Ellipse has complete control over the sound it plays, so your music is projected into the room with clarity and authority.

Distinctive and assertive, Meridian Bass & Space technology enables Ellipse to excel in any type of room, whether it's an expansive living space or a small and busy kitchen. Ellipse provides a feeling of freedom – allowing you to relish the moment and take control of your environment.
