

# MERIDIAN AT CEDIA EXPO 2024

PRESS RELEASE

September 2024

## MERIDIAN AT CEDIA EXPO 2024

Meridian will be attending CEDIA Expo 2024, partnering with APEX Technologies (booth #C1305) and Barco Residential (booth #1328) to showcase its high-end audio solutions. Attendees will have the exclusive opportunity to experience the US debut of Meridian's groundbreaking Ellipse loudspeaker, alongside other innovative audio solutions.

The award-winning **Ellipse** is Meridian's high-performance all-in-one streaming speaker and is a complete Meridian system in a luxury and compact form factor. It is a distillation of everything the company does and is designed, engineered and manufactured by the same experts who craft Meridian's floor-standing loudspeakers in its UK factory. Ellipse delivers Meridian's renowned sound signature in any room and features twelve proprietary DSP technologies, including the implementation of 'Meridian Bass & Space' for the first time in a home audio product. The streaming speaker was recently honoured as a Premium Wireless Loudspeaker at the 2024-2025 EISA awards.

Meridian will be showcasing **Ellipse** as part of its Extreme Engineering display on booth #C1305. Alongside Ellipse will be a matte black **DSP8000 XE**, which is the first product to have emerged from the companies Extreme Engineering Programme, and Meridian's award-winning **DSP9** loudspeaker in a striking Volcano Orange. Additionally, DSP9 will also be on display in a custom Nato Olive Green within Barco Residential Booth #1328.

New to CEDIA, Meridian will be unveiling an exciting collaboration with Leon Speakers. Targeted at the US market, Leon have designed an Edge Media Frame specifically for Meridian's range of high performance architectural loudspeakers. This unique collaboration brings together Meridian's signature sound philosophy with Leon's creative expertise in custom-built media frames and technology concealment. The *Leon Edge Media Frame for Meridian* is an elegant on-wall media mounting solution consisting of a custom-built, solid hardwood frame and sophisticated mounting system that elegantly encases any TV and architectural loudspeaker from Meridian

Visitors to booth #C1305 will be able to experience up close Meridian's DSP750 combined with a 65inch TV set-up, to demonstrate the speaker's high fidelity performance and patented technologies such as 'Image Elevation' when configured in L+R Soundbar Mode. These speakers offer high SPLs and strong bass

performance, powered by Meridian's 'CLASS-M' DSP engine. They feature a double precision Aux filter for improved low-frequency resolution and built-in Dynamic bass protection technology for enhanced bass extension, ensuring exceptional audio performance.

Meridian will demonstrate how its products can be integrated into a complete home theatre solution using its complimentary **Design and Specification Service**. Attendees are encouraged to bring their plans to the show to utilise this service, which facilitates the creation of high-performance designs efficiently, saving valuable project time.

## About Meridian Audio

Meridian is a multi-award winning British audio technology innovator with a rapidly growing automotive business. In home audio, Meridian is best known for the hi-fi and surround sound cinema products chosen for many of the world's most astonishing residences and super yachts. For the demanding in-car environment, the company focusses on pioneering DSP and other software technologies, supported by deep expertise in electronics, hardware integration and system tuning. Many of the world's most ambitious vehicle manufacturers trust Meridian to support their audio system design, adding value to their most premium systems through the addition of the Meridian brand. Meridian is a technology-driven business that invests around 15% of revenue in R&D, ensuring a full pipeline of innovations that deliver exciting upgrade paths for its customers.
